COPYRIGHT TRANSFER

In compliance with U.S. law, a written transfer of copyright from the author(s) to the publisher is required. Such transfer enables the publisher to provide the widest possible dissemination of the author's work and to defend against copyright infringement. We therefore ask that you complete and return this copyright transfer promptly, keeping a copy for your records.

In consideration of the professional benefits relating to the publication of my work, I transfer to the Pediatric Pharmacy Advocacy Group, Inc. (the "Publisher") the copyrights and all worldwide right, title, and interest to all parts of the written work and artwork named in the manuscript entitled "your manuscripts title" including but not limited to: 1) copyright (text and graphics); 2) the right to grant permission to republish the whole or in part, with or without fee; 3) the right to produce reprints for sale or for distribution; 4) worldwide translation rights; and 5) the right to republish the work in a collection of articles or in any other format, including but not limited to electronic media.

In addition, I affirm that the above mentioned manuscript has not been previously published, has not otherwise been submitted for publication, is original (except for material in the public domain or for which permission has been obtained), and that the manuscript does not contain any libelous or otherwise unlawful material or infringe any copyright or any personal or proprietary right.

I reserve the right to use the "your manuscripts title" at no cost for scholarly or education purposes provided that said manuscript use is not for profit and that proper acknowledgement is given to the source and that the Publisher has been notified in writing of said intent. Please indicate your acceptance of the term of publication of "your manuscripts title" by signing and dating this copyright transfer and promptly returning one (1) original of this form to the Editor. If the contribution to the manuscript is jointly authored, all authors are co-owners of the copyright and each must affect a transfer of copyright ownership to the Publisher.
